

Download, Find & Follow!

Follow your school, sports club or organisation in **4 easy steps**.

No login required.

1 Download the Hail app

Scan a QR code on your phone, iPhone, tablet or iPad – or search for “Hail” on the App Store or Google Play to download.

Android

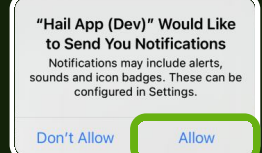

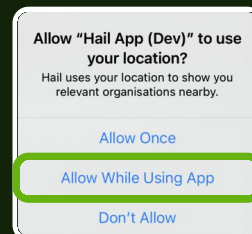

iOS

2 Accept Permissions

Open the Hail app, and when prompted, allow permissions for location access and push notifications.

* You don't have to enable these, but location allows Hail to suggest nearby organisations you might like, and enabling push notifications means you'll never miss an update from the organisations you follow.

3 Find Your Organisation

From the main Explore page, search for your school, club, church, community group, or any organisation on Hail.

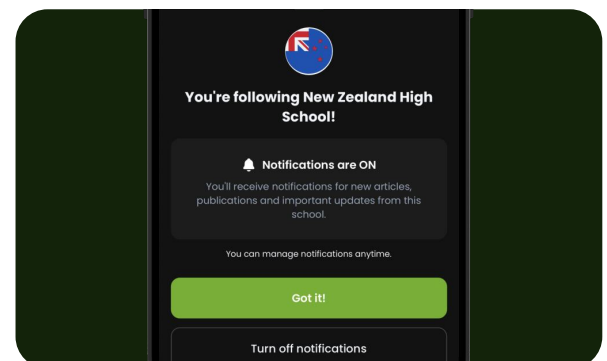

You might be interested in...

4 Tap Follow

Tap Follow to add an organisation to your list and subscribe to updates.

* Follow as many organisations as you like — your kids' schools, the local sports club, and your church. You can turn off push notifications and still follow your organisations, but we recommend keeping notifications on so you never miss an update.

That's it!

You're all set! Questions? See your app Settings for support details, or email support@hail.to.
